

# U.S. Department of Energy Categorical Exclusion Determination Form

Submit by E-mail

Proposed Action Title: (0471-1560) University of Texas at Austin - Thermal Batteries for Electric Vehicles

Program or Field Office: Advanced Research Projects Agency - Energy

Location(s) (City/County/State): Austin, TX; Sunnyvale, CA

Proposed Action Description:

Funding will support development of thermal energy storage systems (thermal batteries) for cabin heating and cooling in electric vehicles (EVs).

Proposed work will consist of (1) indoor, laboratory-based materials synthesis and characterization of phase change materials and graphene-carbon nanotube composites; (2) indoor, laboratory-based design, fabrication, and bench-scale testing of thermal battery prototypes; (3) integration of thermal battery chargers into an EV charging station; (4) integration of thermal battery prototypes into an EV; and (5) field testing of two thermal battery prototypes in the EV on public roads.

Proposed materials synthesis and characterization and design, fabrication, and bench-scale testing will take place at the University of Texas campus in Austin, TX. Proposed field tests will take place on public roads near SinoEV Technologies, Inc.'s facility in Sunnyvale, CA. All other proposed work will take place at SinoEV Technologies, Inc.'s facility in Sunnyvale, CA.

Categorical Exclusion(s) Applied:

B3.6 - Small-scale research and development, laboratory operations, and pilot projects

B5.1 - Actions to conserve energy or water

B5.23 - Electric vehicle charging stations

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of [10 CFR Part 1021](#).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.
