Proposed Action Title: Palo Alto Research Center (PARC) - Micro-Chiplet Printer for MOSAIC

Program or Field Office: Advanced Research Projects Agency - Energy

Location(s) (City/County/State): Palo Alto, CA and Albuquerque, NM

Proposed Action Description:

Funding will support research and development activities to develop a micro-photovoltaic (micro-PV) cell or chiplet printer with potential to enable economical, high-volume manufacturing of micro-PV cell arrays. The proposed printer will arrange micro-PV cells in a pre-defined manner and will use ink composed of micro-PV cells to digitally place and electronically interconnect the cells. If successful, development of a cost-effective, high-volume production method for micro-PV cells could enable the development of micro-CPV systems that could overcome the constraints of conventional CPV technologies by enabling diffuse light collection, and could lead to significant energy savings by expanding the geographic areas in which these technologies can operate successfully.

All research and development activities will be conducted in PARC's laboratory facility located in Palo Alto, CA and Sandia National Laboratories' laboratory facilities located in Albuquerque, NM. All work will be performed in accordance with applicable Federal, State, and local environmental and safety requirements.

Categorical Exclusion(s) Applied:

B3.6 - Small-scale research and development, laboratory operations, and pilot projects

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of [10 CFR Part 1021](#).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.

NEPA Compliance Officer:

Date Determined: 11/2/2015
